# 4 recording mode

The iTech PowBOX V25 Portable Multimedia Player provides you with a variety of recording capabilities. You can record your favorite TV shows, movies from VCD/DVD, and songs and music from your audio equipment (e.g. Hi-Fi system.) You can also use the PMP as a general voice recorder to record voice memos. The video and audio data will be stored in the PMP's internal memory or onto an external SD/MMC memory card. Please note that the maximum memory size of the SD/MMC card is upto 1GB.

## 4.1 Recording Menu

- Record TV / Movies
- Voice Record
- Bluetooth

## 4.2 Record Video (AV in)

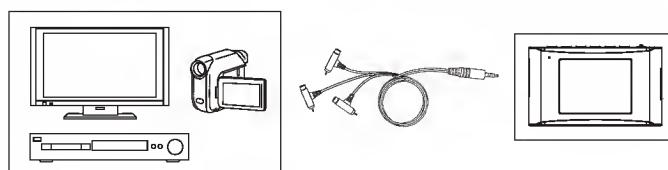

### 4.2.1 How to Connect

To record a video onto your PMP, just connect the AV e.g TV equipment to your PMP with the AV cable provided.

1. Plug Red, White and Yellow ends of the AV cable into the Audio and Video Out sockets of your AV equipment:

Red - Audio OUT (R), White - Audio OUT (L), Yellow - Video OUT

2. Plug the Black end of the AV cable into the AV IN interface of your PMP.

### 4.2.2 How to Record

1. In Main Menu, move the Cursor to select RECORDING.
2. Press down the SELECT DIAL to go to Recording Mode.
3. To set the duration of the video to be recorded, press the SOFTKEY 1 or the SOFTKEY 2 button to set the timer. Press the SOFTKEY 1 button to increase record length by 1 min and the SOFTKEY 2 button to decrease. Press the UP button to increase record length by 10 mins and the DOWN button to decrease.
4. Move the Cursor to select AV IN and press down the SELECT DIAL to begin recording.
5. Recording will stop automatically at the preset time, or you can stop the recording at any time by pressing down the SELECT DIAL .

## 4.3 Record Video Memo (Mic in)

### 4.3.1 How to Connect

You can record the voice memo through the built-in microphone of your PMP or an external microphone. If you use an external microphone, just plug the other end of the microphone into your PMP's AV IN SOCKET.

### 4.3.2 How to Record

1. In Main Menu, move the Cursor to select RECORDING.
2. Press down the SELECT DIAL to go to Recording Mode.
3. To set the duration of the voice memo to be recorded, press the SOFTKEY 1 or the SOFTKEY 2 button to set the timer. Press the SOFTKEY 1 button to increase record length by 1 min and the SOFTKEY 2 button to decrease. Press the UP button to increase record length by 10 mins and the DOWN button to decrease.
4. Move the Cursor to select MIC IN and press down the SELECT DIAL to begin recording.
5. Recording will stop automatically at the preset time, or you can stop the recording at any time by pressing down the SELECT DIAL .

#### 4.4 Record Audio (Audio in)

##### 4.4.1 How to Connect

To record an audio track or song onto your PMP, just connect the audio equipment to your PMP with the audio cable provided.

1. Plug one of the ends of the audio cable into the Audio Out socket of your audio equipment.
2. Plug the other end of the audio cable into the AV IN interface of your PMP.

##### 4.4.2 How to Record

1. In Main Menu, move the Cursor to select RECORDING.
2. Press down the SELECT DIAL  $\blacktriangleleft\text{-OK-}\triangleright$  to go to Recording Mode.
3. To set the duration of the audio to be recorded, press the SOFTKEY 1 or the SOFTKEY 2 button to set the timer. Press the SOFTKEY 1 button to increase record length by 1 min and the SOFTKEY 2 button to decrease. Press the UP button to increase record length by 10 mins and the DOWN button to decrease.
4. Move the Cursor to select AUDIO IN and press down the SELECT DIAL  $\blacktriangleleft\text{-OK-}\triangleright$  to begin recording.
5. Recording will stop automatically at the preset time, or you can stop the recording at any time by pressing down the SELECT DIAL  $\blacktriangleleft\text{-OK-}\triangleright$ .

## 5 applications

1. In Main Menu, move the Cursor to select APPLICATIONS.
2. Press down the SELECT DIAL  $\blacktriangleleft\text{-OK-}\triangleright$  to go to Applications Mode.

There are 2 applications in this Mode:  
 1) Alarm Clock  
 2) Calendar

#### 5.1 Set Alarm

1. In Applications Menu, move the Cursor to select ALARM.
2. Press down the SELECT DIAL  $\blacktriangleleft\text{-OK-}\triangleright$  to go to Alarm Menu.

##### How to set alarm:

1. Press the SOFTKEY 1 button to set alarm ON/OFF.
2. Turn the SELECT DIAL  $\blacktriangleleft\text{-OK-}\triangleright$  to move the Cursor to left or right.
3. Press UP/DOWN button to input the desired time.
4. Press down the SELECT DIAL  $\blacktriangleleft\text{-OK-}\triangleright$  to confirm the setting.

#### 5.2 Calendar

1. In Applications Menu, move the Cursor to select CALENDAR.
2. Press down the SELECT DIAL  $\blacktriangleleft\text{-OK-}\triangleright$  to go to Calendar Menu.

- UP/DOWN button:  
 Press to select PREVIOUS / NEXT year.
- SELECT DIAL  $\blacktriangleleft\text{-OK-}\triangleright$  :  
 Turn to select PREVIOUS / NEXT month.

# 6 set up mode

With this mode, you can set various settings for your PMP such as clock, sound volume, display language, storage memory, display mode, power saving, formatting as well as factory settings.

## 6.1 SET UP Menu

1. In Main Menu, move Cursor to select SET UP.
2. Press down the SELECT DIAL  $\blacktriangleleft$ -OK- $\triangleright$  to go to SETUP Mode.

## 6.2 Set Time

1. In Set Up Menu, move the Cursor to SET TIME.
2. Press down the SELECT DIAL  $\blacktriangleleft$ -OK- $\triangleright$  to go to SetTime Menu.
3. Turn the SELECT DIAL  $\blacktriangleleft$ -OK- $\triangleright$  to move the Cursor to the desired function.
4. Press the UP/DOWN buttons to input correct Date (YYYY/MM/DD) and Time (HH:MM:SS).
5. Press down the SELECT DIAL  $\blacktriangleleft$ -OK- $\triangleright$  when it is done.

## 6.3 Speaker

1. In Set Up Menu, move the Cursor to SPEAKER.
2. Press down the SELECT DIAL  $\blacktriangleleft$ -OK- $\triangleright$  to go to Speaker Menu.
3. Turn the SELECT DIAL  $\blacktriangleleft$ -OK- $\triangleright$  to select speaker ON or OFF, then press down to confirm.

## 6.4 Language

There are nine language options on your, PowBOX V25, English and Traditional Chinese.

1. In Set Up Menu, move the Cursor to LANGUAGE.
2. Press down the SELECT DIAL  $\blacktriangleleft$ -OK- $\triangleright$  to go to Language Menu.
3. Press the UP/DOWN button to select your desired language,
4. Press down the SELECT DIAL to confirm.

## 6.5 Storage

Your PMP comes with internal memory. If there is no external memory card inserted, your PMP will operate with its internal memory. If an external memory card (SD/MMC) is inserted and detected, your PMP will automatically operate with the external memory card only. You can also assign your PMP to use the internal memory to read or write data even if a memory card is inserted. To activate the internal memory:

1. In Set Up Menu, move the Cursor to STORAGE.
2. Press down the SELECT DIAL  $\blacktriangleleft$ -OK- $\triangleright$  to go to Storage Menu.
3. Press the UP/DOWN button to select ON.
4. Press down the SELECT DIAL to activate the internal memory.

## 6.6 TV Out

Your PMP allows you to display the image on the LCD display as well as on your TV set. If "Display on TV set" is selected, the LCD will turn off automatically. To activate TV Out:

1. In Set Up Menu, move the Cursor to TV OUT.
2. Press down the SELECT DIAL  $\blacktriangleleft$ -OK- $\triangleright$  to go to TV Out Menu.
3. Press the UP/DOWN button to select ON.
4. Press down the SELECT DIAL to display image through TV.

#### 6.7 Auto Power OFF

With this function, you can preset a time that will automatically turn off your PMP when not in use. There are 4 options you can choose from: Never, 3 minutes, 15 minutes or 30 minutes. If NEVER is selected, your PMP will only be turned off when you press the POWER button. To activate the Auto Power OFF:

1. In Set Up Menu, move the Cursor to AUTO POWER OFF.
2. Press down the SELECT DIAL  $\blacktriangleleft$ -OK- $\triangleright$  to go to Auto Power OFF Menu.
3. Press the UP/DOWN button to select Never, 3 minutes, 15 minutes or 30 minutes.
4. Press down the SELECT DIAL to confirm.

#### 6.8 Default

The DEFAULT option provides you a quick access to reset your PMP back to the original settings. To do a reset:

1. In Set Up Menu, move the Cursor to DEFAULT.
2. Press down the SELECT DIAL  $\blacktriangleleft$ -OK- $\triangleright$  to go to Default Menu.

#### 6.9 Upgrade

This is reserved for future manufacturer upgrades.

## 7 format

This option will allow you to erase all the data stored in the internal or external memory card of your PMP. Therefore, make sure you have made a back up of your data in the PMP before performing this task. To format your PMP:

1. In Set Up Menu, move the Cursor to FORMAT.
2. Press down the SELECT DIAL  $\blacktriangleleft$ -OK- $\triangleright$  to go to Format Menu.
3. Move the Cursor select Yes.
4. Press down the SELECT DIAL  $\blacktriangleleft$ -OK- $\triangleright$  to confirm.

5. To format the internal memory, press SOFTKEY 1 button, then press down the SELECT DIAL to confirm.

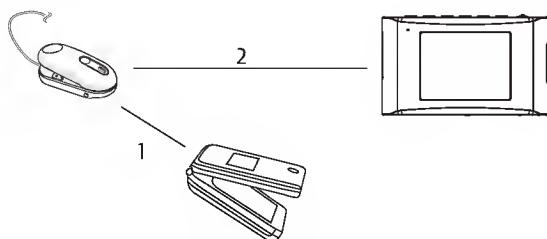

e

6. To format the external memory card, press SOFTKEY 2 button and then press down the SELECT DIAL  $\blacktriangleleft$ -OK- $\triangleright$  to confirm.

# 8 bluetooth

## 8.1 Bluetooth Stereo

With the latest built-in Bluetooth technology (Bluetooth 1.2 A2DP) and the i.Tech Bluetooth Headset, you can now enjoy wireless stereo sound from your PMP.

## 8.2 Prepare your Bluetooth Headset

Before using your headset for the first time you **MUST** fully charge it for a minimum least 3 hours. Only use the charging cable or USB cord provided by i.Tech to charge the Headset. When the Headset is fully charged, the red light on the LED will turn BLUE.

IF you have a Bluetooth Compatible mobile Handset and want to use it with your i.Tech Headset, please pair the Headset with the mobile handset **BEFORE** pairing with your PMP.

## 8.3 Pairing the Headset with Your Handset

1. Place the Headset and the mobile handset within a one meter range and make sure there are no obstacle in between.
2. Make sure the headset is turned OFF.
3. Press and hold the MFB until the headset LED alternately flashes blue and red.
4. Activate your mobile handset's Bluetooth function according to your mobile handset user guide.
5. Set the mobile handset to search for Bluetooth devices as instructed in the mobile handset user guide and select "i.Tech stereo headset" from the list.

6. Enter the preprogrammed passkey "8888" and press "OK" to pair your Headset and mobile handset. When the pairing has succeeded, the Headset LED will flash blue rapidly for 5 times follow by a long beep.
7. Check your mobile handset for successful activation indication. For certain mobile handset models, a headset icon will appear on the screen. You should now be able to make and receive calls using your headset.

## 8.4 Pairing the Headset with Your PMP

1. Turn off the Headset by pressing and holding the MFB for 3 seconds until you hear a short beep.
2. Turn the headset back on again by holding the MFB until you see the headset LED alternately flash BLUE and RED. Now, your headset is in "pairing mode".
3. Place the headset and your PMP within a 1 meters range, and keep the handset in range as well. Make sure there is no obstacle in between.
4. For your PMP, move the Cursor to select BLUETOOTH in the Main Menu.
5. Press down the SELECT DIAL  $\blacktriangleleft$ -OK- $\triangleright$  to go to Bluetooth Menu.
6. Move the Cursor to select "ON", then press down the SELECT DIAL  $\blacktriangleleft$ -OK- $\triangleright$  to start pairing.
7. The LED on the Headset will have a long flashing BLUE light to indicate the headset has been successfully paired with the PMP as well as your mobile handset.

**IMPORTANT:** If the pairing cannot be completed within 2 minutes, the headset LED will flash PURPLE and RED and emit 3 beeps and then turn off. Please repeat the above Headset-Handset as well as the Headset-PMP pairing procedures again.

# 9 about i.Tech

## 9.0 About i.Tech

In this Menu , you will find information about i.Tech as well as the service centers.

1. In Main Menu, move the Cursor to i.Tech.
2. Press down the SELECT DIAL **◀-OK-▶** to go to i.Tech Menu for the requested information.

25

# care & maintenance

## YOUR PMP

- Do not use any batteries, power sources or accessories not specified in this user guide.
- Turn off your PMP if not in use to avoid unintended power consumption.
- Do not drop your PMP or subject it to any physical shock .
- Do not use, place or store your PMP in places exposed to strong sunlight or high temperatures, such as inside the car. Exposure to intensive sunlight and heat may cause your PMP to malfunction, the memory card to bend, and the battery to leak, overheat or explode.
- Your PMP is not waterproof, do not expose it to liquid, moisture or high humidity.
- Do not use abrasive solvents such as paint thinner and benzene to clean your PMP. Doing so may cause damage.
- Do not disassemble or modify your PMP yourself. High-voltage internal parts can result in an electrical shock.
- Do not insert any foreign metallic objects into your PMP. Doing so may cause damage to your PMP.
- Do not expose your PMP to sharp objects.
- If you do not use your PMP for a long period, remove battery from the compartment and store it in a dustless, cool and dry place.
- If your PMP does not work properly or requires repair, contact your dealer or the nearest service centers.

## SD/MMC CARD

- Do not bend, drop or subject the card to vibrations. Doing so could damage the data recorded on it.
- Do not store or use a memory card near anything emitting a strong magnetic field or static electricity, otherwise the data recorded on the card may be lost.
- Do not spill water or expose the memory card to direct sunlight or a heat source. It will make the card unusable.
- Do not store the memory card in hot, dusty or humid conditions.

26

#### BATTERY & CHARGER

- Only use the iTech USB cable or AC power USB charger provided to charge your PMP as well as the Headset.
- Do not disassemble or modify the battery and the charger. Doing so may expose you to high-voltage internal parts and cause electrical shock or other risks.
- Do not use the charger near a heat source, extreme high and low temperatures or in damp areas.

## safety information

- Keep your PMP and the accessories out of reach of small children. Small parts may be a choking hazard.
- Do not handle the power plug with wet hands.
- Do not use your PMP where there is flammable gas to prevent explosion and fire.
- Before using your PMP in the areas like hospitals, blasting areas or inside an airplane, check if it is allowed. Electromagnetic waves emitted by the PMP may interfere with the area's instruments.
- Do not short circuit, disassemble or modify the rechargeable battery. Doing so may cause electrical shock.
- Do not place the batteries near a heat source as this may cause an explosion.
- There is the risk of explosion if the battery is replaced by an incorrect type.
- Dispose of batteries according to local regulations. Do not dispose of them as household waste.
-  Dispose of the packaging and this product in accordance with the latest provisions.

## troubleshooting

### Q1. PMP does not operate.

Cause	Solution
1. Power is not on.	Press and hold the POWER button for 3 seconds.
2. Battery compartment cover opened.	Check the cover and cover it again.
3. Battery voltage too low.	Recharge the battery until full.
4. Bad battery contact.	Clean the battery terminal with a clean and dry cloth.

### Q2. PMP cannot record.

Cause	Solution
1. Duration setting is not right.	Read thoroughly the recording section to preset recording duration again.
2. Memory card full.	Check the SD/MMC card to see the memory space. If it is full, delete data to free memory space on card.
3. Wrong connection.	Check the connection details in accordance with the recording section in this user guide.

### Q3. Headset cannot connect to the PMP.

Cause	Solution
1. Pairing not complete.	Check the pairing procedure in this user guide and do the paring again. Be sure to pair your mobile phone (if you have one) FIRST then the PMP.
2. Signal not received.	Make sure the connection distance is a maximum of 10 meters and there should be no obstacle in between.
3. Headset and PMP battery voltage too low.	Remove the battery from the PMP for a while, then recharge the PMP and the Headset again.

If all the above have been done and the problems still exist, please call your dealer or bring the product to the nearest service center. For more information, please visit <http://www.itechdynamic.com>
